Clean Air Programme
Data Science in Air Quality and Health Research Workshop
Bringing Together Data To Improve Air Quality For Health Of The Nation

Day 2: 17th September 2021
Programme Outline

	DAY 2: BUILDING CONNECTIONS AND COLLABORATIONS
09.45	**Waiting Room Opens for participants**
10.00	**Welcome to Day 2** **Dr Matthew Hort – The Met Office**
	Informal participant networking and mingle
	Introduction to Case Study **Dr Jenny Baverstock** **Case Study** **'What air pollution and health questions should we be addressing?'** **Professor Anna Hansell - University of Leicester** **Followed by Breakout Discussions and Feedback**
11:05	**Break**
11:15	**Open Floor - comments and reflections in 1 minute inputs**
	Case Studies **'Illustrations of successful collaborations between data and health communities and the value of collaborative working'** **Professor Aziz Sheikh – University of Edinburgh** **'Working with Data Scientists to better understand air quality and its impacts'** **Dr Paul Young – Lancaster University**
	Introduction to the Emerging Themes **Dr Gary Fuller – Imperial College London** **Followed by Breakout Discussions: Developing Research Collaborations**
	Closing Comments and Next Steps **Professor Sir Stephen Holgate**
13.15	**CLOSE**
