## Towards a balanced position on biological particulate matter as a component of healthy air

Sean Tyrrel, Colbeck I, Marczyklo E, Nasir ZA, Douglas P, Whitby C, Ferguson RMW, Dumbrell AJ, Kinnersley R, Drew G, Bhui K, Lemon M, Jackson S, Coulon F

## **Biologically “clean” / “healthy” air?**

**The lack of a common understanding of the concept is a barrier to network and public engagement**

### **Premise:**

**We already know enough to be able to communicate the risks associated with airborne biological hazards in a balanced way that accepts exposure to bioaerosols as part of a healthy life**

**Please come to my market stall to barter ideas on this aspect of clean air**
